

# NATURAL HEALTH SPA SMRDÁKY

Slovakia

EXPERTS FOR YOUR SKIN

PRICE LIST 2017

Valid from 22 January 2017 to 8 December 2017

In the picturesque Záhorie region, at the foot of the Carpathian Mountains, in the idyllically rolling countryside among small hills and valleys you will discover Smrdáky.

The small spa town is less than 7 km from the district town of Senica and approximately 80 km from the capital city of Bratislava. A million years ago the prehistoric sea left a precious heritage in the form of mineral water springs with a high content of sulphide and curative sulphide mud. These unique natural curative resources have been well known for hundreds of years and still contribute to good health to many people. Treatment of skin diseases also in conjunction with diseases of the musculo-skeletal apparatus.

Nowhere in the world you will find a spa with such high levels of sulphide (origins from the Tertiary period) and sophisticated efficient treatment. It is based on recognised balneo-therapeutic methods, unique concentration of sulphide and the individual approach of the medical staff. Moreover, the spa town offers to the visitors a family atmosphere, peace and tranquillity.

### **WE ADMIRE YOU, MR . VIETORIS**

The history of Spa Smrdáky is inseparably linked with the curative springs located in the local vicinity. Their effects made them widely known not only in Slovakia, but also in the whole former Austria-Hungarian empire. Therefore the local spa industry has nearly a 200 year tradition and welcomes guests from all over the world. The first Spa house was built near the springs by the land owner Jozef Vietoris, Nitra's vice country chairman in 1833. After several reconstructions, the impressive building

of the manor (castle) is still functional and with it's neoclassical portal became the symbol of the Spa. Jozef Vietoris took great care to create a pleasant and comfortable spa environment and atmosphere. Thanks to drainage of the marshland he cleared the space to create the park where he planted precious woods. Today the Spa Park has 16 hectares and is a favourite place for the Spa guests to relax.

### SULPHIDE MINERAL WATER

A hydrological survey made between 1950 –1956 significantly contributed to the development of the spa industry and opened up modern history of the Spa. Two new springs of hydrogen sulphide water Jozef I. and Jozef II. were discovered, both of which are sources of mineral water with high content of sulphide up to 680 mg and with a total content of 3400 mg of mineral substances per litre.

The mineral water is characterised by a distinctive hydrogen sulphide odour but it relieves pain, heals and revitalises. Every year more than 4300 guests from all over the world recognise it's healing power and most of them usually return because of its extraordinary effects.

### SULPHUROUS MUD

The unique natural sulphurous healing mud originates from the flow of sulphide mineral water through loess soil. After extracting the mud is stored in a special pool where it matures for one year under the layered sulphide mineral water.

The preparation process ends in „a mud kitchen“, from where it goes to the guests. It has a special consistency allowing thermal durability, it cools down 4-times slower than water and warms even deep body structures.

## Treatment in Spa Smrdáky

### TREATMENTS

The treatment programme takes place under the supervision of experienced doctors. After the initial medical check, an individual treatment plan is prepared for you which reflects your personal health problems. During the treatment, your health and progress with treatments is regularly checked by the doctor. The recommended length of the spa stay is 2–4 weeks. The objective is to close coetaneous manifestations, to achieve an improvement on movement and to achieve long term remission, a period without any symptoms of the disease. It is also important to achieve the feeling of improved well being and to improve mental and physical health that will ultimately contribute to the improvement and quality of your life.

### THE PRIMARY THERAPEUTIC TOOLS ARE THE INDIVIDUAL MINERAL BATH AND MUD WRAPS

During the mineral bath the sulphide goes through the skin into the body, it also has anti-inflammatory healing effects and a positive effect upon immunological changes. It calms the irritated skin and improves its elasticity. The procedure lasts for 10-15 minutes followed by dry wrap and rest. The individual approach of the doctor is very important, he will determine not only the water temperature and length of the bath but also the concentration of sulphide in the mineral bath, keeping in mind each individuals health. In order to optimize the effects, the bath is accompanied by mineral hand and leg baths using a higher concentration of mineral water.

Partial or total mud wraps reduce local swelling around joints, reduce tensions in muscles and improve nutrition of cartilages, connective tissue and intervertebral discs. They strengthen anti-inflammatory activity and immune processes in the body. Mud temperature is from 43 to 45 °C, it is applied on specific parts of the body with the whole procedure lasting for 20 minutes.

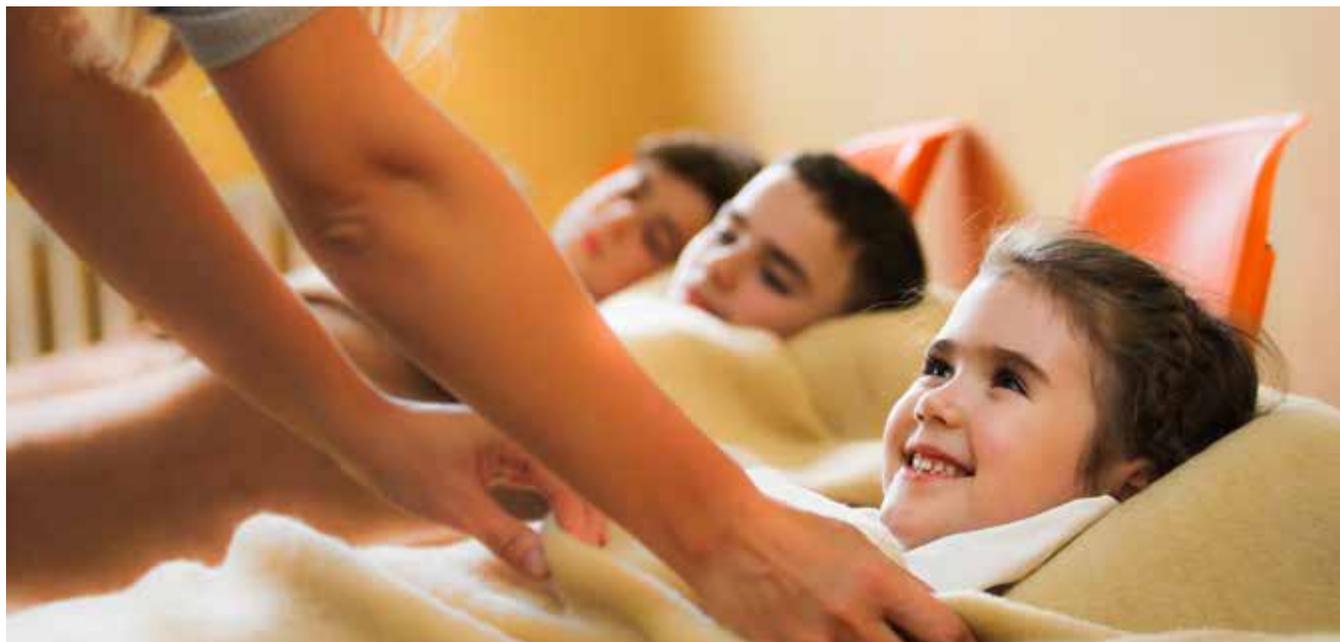

### WHAT ELSE CAN YOU EXPECT FROM US?

In addition to mineral baths, mud and paraffin wraps you can also use other treatment procedures. They will help you to complete your basic treatment in order to achieve the highest healing effect, rest and at the same time regeneration of your body and soul.

### PHOTOTHERAPY

During summer months we use the natural solarium for tanning. In case of bad weather and during the winter season we provide the up-to-date narrow spectral forms of application of ultraviolet radiations which belong to the most efficient tools for treatment of psoriasis, eczema and other skin diseases. They also have the smallest negative long-term accompanying effects of tanning by ultraviolet devices.

Natural solarium, sun-lamp, narrow spectral forms of ultraviolet radiation - UVB, UVA, UVB 311 nm (the abbreviation UV means “ultra-violet”, i.e. radiation above the violet colour of the spectrum, A or B means part of UV radiation, number indicates the wavelength), SUP- selective ultra-phototherapy (a selected part of UV spectrum between the parts A and B).

### LOCAL TREATMENT

Special creams, oils and tinctures with healing component prescribed by our doctors remove symptoms of skin diseases, lubricate the skin, add elasticity, restore its flexibility and help to eliminate itching.

### PHYSIOTHERAPY

Therapeutic exercises led by a professional physiotherapist are another key part of the healing process. The exercises include active and passive movements, overall mobilisation, training of correct breathing in conjunction with training of stability, strength and flexibility.

Individual therapeutic exercise, Group therapeutic exercise, Partial medical massage, Segment and connective tissue massage, Individual exercise - soft techniques, Ultrasound therapy, Foot reflex massage.

### KNEIPP THERAPY

It is based upon the effect of alternating warm and cold water on the body. You should not miss a stimulating and intensive procedure – Scottish spray. It releases stiff muscles, hardens the body, helps to improve the immune system, blood circulation and metabolism and leaves an overall rejuvenating feeling. Alternating leg bath, the so called “stepping bath” has a positive effect on headaches, the electrotherapy relieves pain, strengthens muscles, improves blood circulation.

### ELECTROTHERAPY

Therapy uses a variety of electric currents and their combinations, application of galvanic current, one-way impulse currents, two-poles mid-range currents, TENS currents, middle frequency myostimulation and classical quadru-poles interference with the vector or without it. Depending on frequency, intensity and other parameters, the electrotherapy relieves pain or it strengthens muscles and improves blood circulation and nutrition of tissues.

Interferential currents operate on the principle of combination of effects (interference) of two currents with the middle frequency in the tissue. The advantage of this method is an improved way to overcome resistance in the skin tissue and to achieve deeper skin penetration. The procedure improves blood circulation, counteracts aching muscles by nerve stimulation.

Diadynamic currents use the joint effect of two currents (one constant - galvanic, the second - pulse), which mixing over themselves (dia means over) improve blood circulation in tissues and act against pain.

Neurodyn is a device which allows application of various types of electrotherapy (interference and diadynamic currents, galvanic current) and TENS (transcutaneous electroneuro-stimulation). It uses the principle of mitigation and suppression of pain perception through nerves stimulation.

Fyziomag uses healing effects of the magnetic field on biological tissues. As the result blood circulation is improved, there is reduction of pain and inflammation and relief of painful stiffness of muscles.

## What we heal

### SKIN DISEASES

Psoriasis, atopic dermatitis – eczema, chronic skin diseases, seborrhoeic dermatitis, prurigo, ichthyosis, rosacea, status after burns, acne, sclerodermia and others.

### DISEASES OF MUSCULOSKELETAL SYSTEM

##### Various daily leisure and cultural activities

##### Free entrance to the fitness, gym and group exercises in Regeneration centre

## Do not let your child suffer

Does your child suffer from skin disease? Try the efficient treatment of skin diseases proven over the years – psoriasis, atopic dermatitis - eczema, chronic skin inflammations, prurigo, ichthyosis, rosacea, conditions after burns, acne, scleroderma. The experience of our doctors and therapists bring relief and positive results to your child and to the whole family. We provide a complex treatment and care for children from 3 to 18 years of age; children up to 6 years of age have to be accompanied by a parent or a responsible person.

### HOW WE DO THE TREATMENT

According to the state of health and recommendation of the doctor during the initial examination, we will prepare an individual treatment plan for your child consisting of optimum treatment plan. The treatment is based on sulphide mineral baths or partial mineral hand and foot baths.

We use potassium permanganate, baths with additives and bubble baths that also have positive results. The length of the bath is determined according to the age, physical condition of the child and the current state of their skin disease. Equally important is also the local treatment provided by creams, oils or oil tinctures.

A part of treatment for atopic eczema, psoriasis and acne is the use of ultraviolet radiation depending upon the individual skin photo type of the young patient. Care must be taken to introduce the ultraviolet treatment gradually with small increases to avoid burning and to protect areas with spots. Treatment to children suffering from burns is completed with special massages to the affected areas.

### COMPLEX SPA STAY FOR CHILDREN

#### The stay includes:

**Accommodation with full board** – breakfast, lunch and dinner; special diet recommended by the doctor

**Initial and Final Doctor's Check Up** focused on skin diseases or diseases of locomotive apparatus; initial medical examination, prescription of individual therapeutic program, final medical examination, medical report including suggestions for future treatments, 24 – hour medical emergency and nurse service

#### 1 Doctor's Control per week

**Therapeutic treatments** - the therapy programme is based on unique natural sources - hydrogen sulphide mineral water and sulphurous mud treatment; hydrotherapy, phototherapy, special rehabilitation and reflex massage, lector therapy, treatment with creams and others. Dependant on the diagnosis and doctor's prescription up to 15 treatments per week = 7 night stay or 12 treatments = 6 night stay. Treatment days are Monday - Saturday

## Services not only for leisure time

### GASTRONOMY

Based on the doctor's recommendations we can offer a balanced diet for up to 120 guests in Vietoris restaurant. Excellent food is an important part of your healing process. Rich buffet breakfast with a 'bio corner'; lunch and dinner, À La Carte menu, all types of food of the highest level to suit all diets.

A pleasant part of the Dependence Morava is À la Carte restaurant with a café and summer terrace. The restaurant has a capacity of 60 people and our team of chefs and waiters will spoil you with Slovak delicacies and international cuisine of the highest level, together with the regular tasty dishes from the special culinary calendar. We will serve you delicious wine not only from the Záhorie region but also from abroad.

### CULTURE AND ENTERTAINMENT

We are all different and all have varying ways to amuse ourselves and to relax. Upon arrival our personnel from the information office will provide you with the cultural programme and a list of events; including health and lifestyle lectures, theatre shows, exhibitions, popular danc-

ing, traditional food tasting and drinks and other events. If you would like to travel to the surrounding towns, we will be pleased to arrange theatre, cinema or gallery visits. The "Opening of the Summer Spa Season" or "Vintage" is an unrepeatable social and cultural experience that should not be missed.

### SPORT

The Spa Park covering an area of 16 hectares is a popular place not only for relaxation but also for sport. Our guests can use the tennis courts, volleyball and playground, walking and running paths, rent a bike or play petanque. For those who would like to walk for health and try Nordic walking, we provide an experienced instructor and opportunity to buy specially designed walking sticks.

### TRIPS

In the vicinity of the spa you should definitely visit the well known royal town Skalica, the town Holíč with the mansion of Maria Theresia, the pilgrimage town of Šaštín, monument of M.R. Štefánik at Bradlo, the Baťa channel, or the Spa Island in Piešťany. There are also many other interest-

ing places to visit even further away - Castle Červený Kameň, Lednice and Valtice, the moravia castles Buchlovice and Miletice, ort the Templar Wine cellars with wine tasting of the best wines.

### OPPORTUNITIES FOR EVENTS ORGANISATION

Thanks to this perfect location in the picturesque region of Záhorie, high quality service and a wide range of activities, we present an ideal place to organise any events - congresses, international meetings, training courses, team building events or a traditional wedding in the historical building Mier.
